

# Fintech Forum in Keihanna

-Promising Ventures in Israel-

Mon, October 23, 2017, 1:00pm-5:40pm

ATR Advanced Telecommunications Research Institution International

Event HP:  
<http://keihanna-rc.jp/en/events/event/fintech/>

## Fintech revolution is underway in the world.

With the amount of investment in this field, the combination of the fields of finance and ICT, multiplying year after year, a stream of various convenient services are being generated, people's lifestyle and business practices are changing, and the fintech is now being extended to the information security field. In cooperation with the embassy of Israel in Japan, this event will introduce some of the most promising fintech-related ventures in Israel, the birthplace of fintech. We will also present a Japanese company's approach to the fintech business. "Fintech Forum in Keihanna" will surely give you inspiration to create a brand new business by combining fintech with your technology, product, and service.
